Hey, GPT! My name is Daniel Harka. I need a motivation letter, please. I will be sending it to IT companies. I would like to let them know that it is my dream to relocate to Vienna, Austria and work as a web developer there. It should be included that I have experience in many different areas, but I have most experience with HTML, CSS, SCSS, Bootstrap and JavaScript also some knowledge on TypeScript and Angular. I am on a junior level. I started with the frontend, but in the long run I would like to transition to fullstack as the designing part is not what excites me the most, but how things work under the hood. Reassure them that I'm super motivated and I'm willing to do anything to be able to relocate.

Dear Sir/Madam,

I am writing to express my interest in working as a web developer at your company, based in Vienna, Austria. As someone who has always dreamed of living and working in this beautiful city, I am excited about the opportunity to join your team and contribute my skills and experience to the growth of your business.

I have a strong background in web development, with particular expertise in HTML, CSS, SCSS, Bootstrap, and JavaScript. I have also gained some knowledge of TypeScript and Angular, and I am eager to continue learning and expanding my skill set. While I have mostly focused on frontend development, I am also interested in transitioning to fullstack work in the long run, as I am particularly interested in understanding how things work under the hood.

I am highly motivated and willing to do whatever it takes to succeed in this role. I am confident that my skills and dedication make me a strong candidate for this position, and I am excited about the opportunity to relocate to Vienna and be a part of your team.

Thank you for considering my application. I look forward to discussing my qualifications in more detail and how I can contribute to your company's success.

Sincerely,

Daniel Harka

Perfect! That's exactly what I mean, but was unable to put it into formal words. I hope they will like it. Thanks a lot! <3

You're welcome! I hope that your motivation letter will help you stand out from other candidates and that you will be able to achieve your dream of relocating to Vienna and working as a web developer. Good luck with your job search!
